## Pongal restaurant nyc

Pongal is a popular harvest festival in Southern India. Named after a sweet rice bowl, Pongal is a three day festival that starts on January 14th each year. On the first day, Pongal is offered to bhoji or Indran (the rain gods) to provide rain for the harvest. On the second day, Pongal is offered to Sun (surya). On the third day, the family's cattle (mattu) are cleaned and dressed with flowers, bells and colour powder. This is the day to honor the hard work of the cattle for ploughing fields. Celebrations vary in different regions. Some families clean their houses and throw away their old clothes, but the main activity people from all over the village come together for a community celebration to share their crops and thank you to everyone who has contributed to a successful harvest. I came here with friends based on a recommendation for a vegetarian Indian restaurant and we were all happy with our meals. Medu vada and pakoda are really good, as are all the different dosai, gobi masala and malai kofta. Our waiter was really friendly and made great suggestions on what to order as we were a bit lost in the large menu.
